SMART PRINTING

PIXMA/MAXIFY CLOUD LINK*1
Print From Any Location

PIXMA Cloud Link   MAXIFY Cloud Link

Print your files directly from social networking platforms and cloud storage services, including Evernote, Dropbox and Google Drive.

APPLICATIONS:

1 SCAN AND SEND PRINT

Through PIXMA / MAXIFY Cloud Link, you can scan your documents and images on one printer, and receive the printouts on another.

2 SCAN TO CLOUD

Upload your scanned files directly to cloud storage, or send them directly to your email inbox with the Scan to E-mail feature.

FUNCTIONS:

1. MANAGE MULTIPLE PRINTERS

Companies can register up to 10 printers under one Cloud account, allowing printers to be assigned to individuals, and managed as a group.

2 MANAGE APPS

This feature allows you to create a list of favourite applications for easy access.

VOICE-ACTIVATED PRINTING WITH GOOGLE ASSISTANT OR AMAZON ALEXA

Let your voice be heard. With Google Assistant or Amazon Alexa*2, you can communicate directly to your printer to perform hands–free printing.

Scan QR code to download Canon PRINT Inkjet/SELPHY app

Download on the App Store — GET IT ON Google Play

Print and Scan
– Where and When You Want

The Canon PRINT Inkjet/SELPHY app lets you print, scan, and copy directly from your mobile device, view remaining ink levels, register for Cloud services, and even make changes to your printer settings remotely.

FUNCTIONS:

PHOTO AND DOCUMENT PRINTING
Print directly from your mobile device.

SCAN TO MOBILE DEVICES
Scan directly to your mobile device or iCloud.

SMARTPHONE COPY
Capture a document image with your mobile device, with the edges detected automatically and cropped before printing.
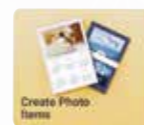

CREATE PHOTO ITEMS
Quick access to Easy-Photo Print Editor app.

NAIL STICKERS CREATOR APP
BE YOUR VERY OWN NAIL ARTIST

Ever wanted a certain nail design but not finding what you are looking for? Now, you can create your original nail art with Canon Nail Stickers Creator app[1]! Choose from the available templates in the app or create a new design and print[2] it out. Visit https://asia.canon/consumer/stickers to find out more.

EASY-PHOTOPRINT EDITOR APP
PERSONALIZED CREATIONS MADE EASY

Now, it is even easier to create personalised items through the Easy-PhotoPrint Editor app[3]. Delve into the extensive template collection available for collages, calendars, stickers, business cards and ID photos! Bring your creative ideas to print in just a few easy steps.

MESSAGE IN PRINT APP
A MAGICAL SURPRISE IN EVERY PHOTO

Open up fun new ways to express yourself in photos! Embed secret animated greetings or video and web links, and send them to your family and friends. All they need to do is to download the app[4] and hover their device camera above the photo to unlock the secret messages.

Scan photos via Message in Print app to unveil the surprise!

[1] Available on Android OS 5.1 or later, iOS 10 or later.
[2] Available for TS9570, TS8370 and TS707 only.
[3] Available on iOS, Android OS, Windows and MAC OS platform. Applicable for certain models only.
[4] Available on iOS and Android OS mobile devices.
• All screen captures are conceptual. (Even if smartphone meets the above operating requirements, Bluetooth communication may not be possible depending on smartphone model.) Internet connection is required. All viewscreen and printer output images are simulated.

DOCUMENT REMOVAL REMINDER

When a document is left on the scanner glass, a notification on the LCD display and an audio alert[1] reminds the user to retrieve the forgotten document (after scanning or copying).

After one minute

Audio alert[1]

1 Document placed on scanner glass for copying/scanning.
2 Message on LCD notifies user that the document has been left behind.
3 User to remove document.
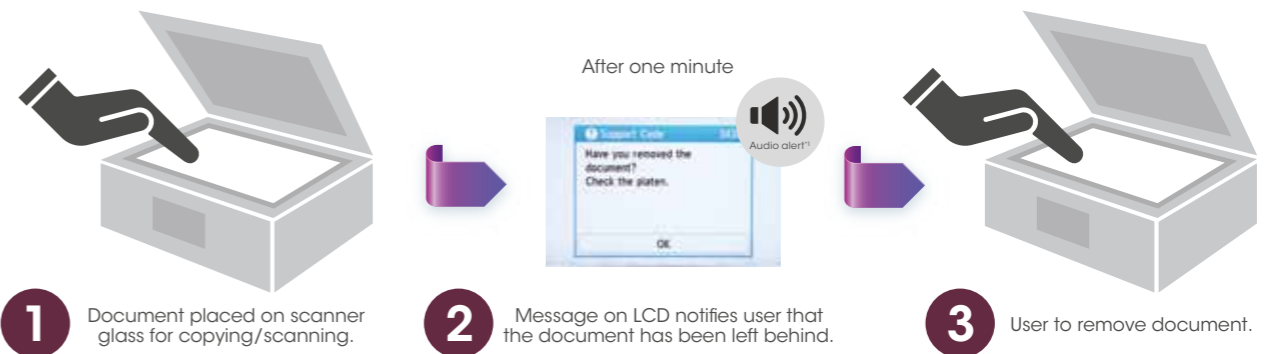

ADVANCED MEDIA HANDLING

2-WAY PAPER FEEDING
Accommodates different paper sizes/types simultaneously. Also supports instagram ready prints and business card printing.

Front / Rear Paper Feeding

DIRECT DISC PRINT
PIXMA printers are able to print images directly onto Blu-ray discs, CDs and DVDs with printable surfaces.

Direct Disc Print

AUTO DUPLEX PRINT
Save on time and resources by printing on both sides of the paper automatically.

Auto 2-sided Print
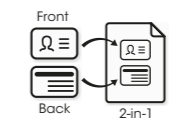

ID CARD COPY
Scan and copy both sides of a business card onto a single printout while retaining its original size.

Front
Back
2-in-1

* Features shown are only available for certain models only.

EASE OF USE

WIRELESS PRINTER WITH SMARTPHONE COPY

Smartphone Copy

PIXMA TS307 combines form and function with a flat-top surface that doubles up as a document scan table. Now anyone with a smartphone can make high quality copies easily.

COPY DOCUMENTS WITH YOUR PHONE CAMERA

Download Canon PRINT Inkjet/SELPHY (iOS/Android), select Smartphone Copy* and begin.

* Smartphone Copy function is also available in all Canon wireless printers that are compatible with the Canon PRINT Inkjet/SELPHY mobile app.

1 Pace document on grid surface and snap a photo.

2 App performs edge-detection automatically.

3 Print or save as a PDF.

FULL TOUCH SCREEN OPERATION

Touch Screen

Large colour touch screen display panel allows easy manual navigation to control the printer, making operation smooth and simple.

BOOKLET LAYOUT COPY

Booklet

Consolidate bulky document stacks into neatly bound booklets as small as A5 size for easy handling.

ECO TIPS

Quiet Mode

QUIET MODE
Reduces printer noise to an absolute minimum.

Auto Power On

AUTO POWER ON
Wakes the printer instantly when a print job is initiated, even when it is powered off*.

*Printer must remain connected to an AC power source.

Auto Power Off

AUTO POWER OFF
Conserves energy by automatically powering off your printer after a period of inactivity.

PRINTER BUYING GUIDE

PRINT CHOICES AT YOUR FINGERTIPS

The Canon Printer Buying Guide is a free mobile app that helps you to choose your ideal inkjet printer, scanner and other products. View key features and compare your favourites side-by-side, and estimate the running costs over a printer's lifetime usage.

SEARCH BASED ON YOUR NEEDS

Understand ink cartridge yields, printer features and more at a single glance.

COMPARE BEFORE BUYING

Compare models side-by-side and decide which best suits your needs and expectations.

CALCULATE COST OF PRINTING

The Total Cost of Ownership (TCO) Calculator gives you an estimated cost of printing.

PRINTER PURCHASE CHECKLIST

WHAT IS THE BUDGET?

This question provides an indicative price bracket for your preferred printer. Many people make the mistake of allowing their purchases to be limited by their budget. It is worthwhile considering a slightly bigger investment in the beginning in order to get the features you need to reap the benefits of enhanced productivity.

WHAT IS THE MONTHLY PRINT VOLUME?

It is important to understand the number of pages you expect to print every month. This will help you gauge print expenses and how often you need to replace the consumables.

DOES THE OFFICE NEED A MULTI-FUNCTION PRINTER?

Multi-function printers are becoming more affordable than ever, but business owners should consider their real needs carefully. With a similar investment, a dedicated single function printer can be more powerful than a multi-function printer. They can be faster and offer productive features such as automatic 2-sided printing or high-capacity paper cassette trays. It is advisable to take long term costing into consideration when choosing a printer.
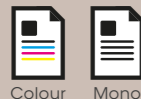

IS THERE A NEED FOR COLOUR PRINTING?

Most documents are perfectly legible and presentable when printed in black-and-white. Business owners will need to examine the needs of the office to understand if there is a need to print in colour, and how often. The cost of printing in colour is approximately four times more than printing in grayscale or monochrome, and can be expensive if the print culture in the working environment sees documents get printed out of convenience, rather than out of necessity. Some business printers are intelligent enough to deploy only black ink to produce shades of true-black, rather than mixing cyan, magenta and yellow colours to produce composite black. It would be advisable to check with your printer retailer to find out if the printer you intend to purchase has such cost-saving features.

EXAMINING THE NEED FOR WIRELESS CONNECTIVITY

It would be prudent to examine the office document printing workflow to understand if wireless functions are really needed, or if wired LAN connectivity would suffice. For offices with mostly deskbound employees, the need for wireless connectivity diminishes. This is especially important when printers with wireless connectivity often have a higher upfront cost than the wired Ethernet only models.

IS THERE A NEED FOR ADD-ON COMPONENTS OR ACCESSORIES?

If business owners foresee an increase in print volume, it might be useful to consider a printer that offers a large paper input capacity for 250 sheets, or even 2,250 sheets.

CREATE, PRINT, STICK!

Cut it up, paste it down or tag it on! Now, you can create your favourite sticker crafts for all parties and occasions. Simply print and paste as a useful everyday essential or accessory to match your wardrobe.

PARTY PLEASER

Scrapbooking

PS-108 Photo Stickers are perfect for parties, scrapbooking, decorating office stationery and more. Packed in sheets of 16 thumbnail-size stickers, you can also print 16 different thumbnails at once, within a single sheet.

FOR MOMENTS & REMINDERS

Fancy Magnets

PS-508 Magnetic Photo Stickers let you customise your own photo magnets. Keep happiest moments close to you. Simply print and stick them on your refrigerator, white board or any other metallic surfaces at home.

IRON-ON TRANSFER

LF-101 Light Fabric Iron-On Transfers and DF-101 Dark Fabric Iron-On Transfers are perfect for personalising stunning design, slogans or everything from T-shirts, tote bags, to aprons and more. Simply print, cut, press down with an iron.

FOR WANDERLUST MEMORIES

Travel Stickers

PS-208 Free-cutting Photo Stickers make photo albums and scrapbooking even more fun. Feel free to cut and personalise your photo stickers based on the theme of your craft. Plus, every print is now a sticker so you can now journal your travels easily without the use of glue!

THE HOUSEHOLD ESSENTIAL

Plants

PS-308R Removable Photo Stickers are here to make organising more efficient and fun! Designed with fabric finishing, they are versatile and can be reused after peeling off.

PATTERN PAPER TEMPLATES
Ready To Print For Any Occassion

Enjoy the convenience of printing up to 45 different types of built-in patterns*. You can use them for scap booking, wrapping papers or decorative craft pieces.
* Available for certain models only.

HIGH PAGE YIELDS WITH LOW PRINT COSTS

High Page Yield

G SERIES
The Ink Efficient G series printers are designed for high volume printing of up to 8,300 pages in monochrome and 7,700 pages in colour.

E SERIES
Designed to boost savings and affordability with low-cost ink cartridges that let you print up to 800 pages.

FAST, NO-MESS INK FILLING
The ink bottle automatically stops filling when the ink reaches the designated level. The entire ink filling process is fast, clean and splatter-free.

Refill Ink Bottles

REFILLABLE INK TANK SYSTEM
Integrated see-through ink tanks allows easy checking of remaining ink and keeps the printer compact.

MONOCHROME PRINT
Canon GM series monochrome printers operate on a single black ink tank but unlike other designs in the market, they come with an option for colour printing. Simply install a compatible colour ink cartridge whenever printing of colour document is required.

*Features shown are only available for certain models only. See specifications for details.

NEWLY DESIGNED INK FORMULATION FOR BETTER PERFORMANCE | ANTI-CURL TECHNOLOGY

POWERFUL PERFORMANCE

- Straight-line, high-speed paper movement reduces tension and stress on paper as well as incidences of paper jams
- High-precision line print head spans the entire paper width and only paper moves while printing
- Optical and in-nozzle sensors monitor ink ejection in real time and make adjustments during printing

LESS PAPER JAMS | DUAL NOZZLE CHECK MECHANISM

HIGH-PRECISION LINE PRINT HEAD

USABILITY

- Navigate all printer operations with the simple intuitive touch screen
- Print and scan without a computer using a USB flash drive
- Ink bottles and maintenance cartridges are easily replaceable

SIMPLE, INTUITIVE NAVIGATION | DIRECT USB CONNECTION

EASY SETUPS | EASY MAINTENANCE

iNSPiC

SNAP EASY, PRINT INSTANTLY

The all new iNSPiC [S] & iNSPiC [C] instant camera printer series. Shoot and print all on one single device! Snap and share moments instantly on 2 x 3″ sticky-backed prints with friends and family anywhere!

Never go out of style with the classic iNSPiC [P] portable printer. Pair up your smartphone via the Canon Mini Print app for instant prints. Double up the fun with in-app edits such as stickers and more to showcase your creativity side! User friendly with ultra-portability, bring the fun everywhere you go with the new iNSPiC series!

ULTRA-SLIM AND COMPACT

So compact and lightweight, the iNSPiC series is perfect as a travelling companion. Slip it in your pocket or sling it on a neckstrap as you cruise through town. Charged up with any portable power bank!

CAMERA + PRINTER CONVENIENCE

The iNSPiC [S] and iNSPiC [C] combine a camera and printer into pocket sized fun. Simply snap your moments and print photos instantly.

STICK THEM ANYWHERE

The convenience of ZINK™ sticky-backed paper means ink-free convenience. Peel off and paste these smudge-proof prints anywhere.

IMPRESSIVE LOW- LIGHT PERFORMANCE

Take amazing selfies in soft lighting with the built-in fill light and 2″ selfie mirror that makes selfie shooting easily.

*Applicable to ZV-123A only.

SHARE YOUR MOMENTS

Share your memories instantly with a dedicated reprint button.

*Applicable to CV-123A & ZV-123A only.

GET PRINTING IN 3 EASY STEPS

Download on the **App Store** GET IT ON **Google Play**

STEP 1: GET CONNECTED

- Download the Canon Mini Print app
- Connect your social media accounts to the app, take a photo with your smartphone or select images from your printer* to you mobile device

* Compatible with iOS 9.0 or later; Android 4.4 or later. Applicable to ZV-123A and PV-123A.

Bluetooth™

STEP 2: ADD FUN

- Customise your photos before printing with creative image filters, frames or stamps

STEP 3: PRINT AND SHARE

- Print 2 x 3″ photos and share with friends and family

GENUINE INKS AND PAPER MEDIA

Designed to bring out the best in your prints, Canon's genuine inks and wide range of speciality papers come with unique qualities that achieve outstanding results for your printing needs.

CHROMALIFE100

A CENTURY OF BRILLIANT PHOTOS

ChomaLife100 greatly increases the longevity of your photos through an innovative combination of Canon Genuine Inks and Photo Papers. Not only will prints last up to 100 years under proper storage conditions, but image quality will also be greatly enhanced.

*CHROMALIFE100 PROPER STORAGE CONDITIONS
100-year life in an album:
(Criteria for estimation)
The permanence estimates presented above are made using an accelerated dark storage test and designed for silver-halide photos (ISO/FDIS18909). Samples are printed with an optical density of 1.0 (each black, cyan, magenta, yellow) and keptin a controlled environment of high temperature and 50% relative humidity. The test environment is designed to accelerate colour fading. The rate of the decrease in the optical density and the rate of yellow discolouration of the paper are measured. Finally, the results are extrapolated to the length of time that a printed image is kept in an environment of 23°C 50% RH.

30-year lightfastness:
(Criteria for estimation)
When displayed in a glass frame in a typical indoor space (estimating 500 lux / 10 hours per day) without direct sunlight. Estimates for lightfastness are made under the following test conditions. Light source: White fluorescent light 70,000 lux; Temperature: 24°C; Humidity: 60% RH; A 2mm thick glass is placed on the sample with an air gap between the glass and the sample during accelerated testing.

10-year gas fastness:
(Criteria for estimation)
Estimates for gas fastness are made under the following test conditions: Temperature (24°C) and Humidity (60% RH) are controlled in an environment of mixed gases of O3, NOx and SOx. The ratio of the gases is typical to indoor air composition (O3: NOx: SOx = 3:19:1) with 100 times concentration in order to accelerate fading.

(Criteria for estimation of print longevity)
Estimates for image permanence are made using the Wilhelm Imaging Research, Inc. Endpoint criteria: Accumulated illuminance causes a monochromatic / reflective optical density loss of 20-35% (figures set respectively for each colour, starting density of 1.0). Accumulated illuminance causes a difference in colour balance of yellow, magenta and cyan (each component in composite black) of 12-18%.

(Tips)
Making your printed images last longer: Light, environmental gases, high temperature and humidity can accelerate colour fading. When displaying your photographs, avoid high-intensity lighting and use glass-filtered frames. Photos stored in the dark, using archival quality albums or storage materials, will tend to last longer than photos that are exposed to light. Avoid high temperatures and high humidity to promote the image permanence of your photos.

Note:
The image permanence estimates presented above may vary depending on display / storage conditions. The expressed numbers of years estimates are the result of stimulated, accelerated tests conducted by Canon Inc., and do not represent a product guarantee.

PHOTO PRINTING

From Super High Gloss to Matte, Canon's photo papers are perfect for printing photos for special occasions, or when creating scrapbooks and cards.

ZERO INK PRINTING NEW

With Zero Ink Printing® Technology, your photos come out smudge-proof and tear resistant with a sticky back to paste anywhere.

ZP-2030
ZINK™ Photo Paper
• 2 x 3", 2 x (10 sheets + 1 SMART SHEET™)

HOW TO CHOOSE THE RIGHT PAPER

Selecting the right paper for your printouts is essential, as an unsuitable paper media can result in a lacklustre print. Canon's speciality papers are specially treated to work optimally with your printer's ink, creating printouts with superior images and crisp, sharp text. It is therefore crucial to understand how each paper type can best complement your printing needs.

SMOOTH
Ideal for printing typography-heavy projects with definitive shapes or high black-and-white contrast. Colours stay in place and are less susceptible to "bleeding", delivering a more crisp and vivid picture.

BRIGHTNESS
Brighter and whiter papers will produce lighter printouts; while a duller paper will create prints with muted tones.

MATTE
Matte papers are great in preventing light reflections or fingerprint smudges often seen on glossy papers, making it especially ideal for scrapbooking projects, cards and more.

GLOSSY
Glossy finish paper offers outstanding resolution, colour range, and durability. It's excellent for portfolios, photo albums, and prints for plastic and glass displays.

ROUGH
Unique, canvas-like quality, rough finish papers are especially ideal for producing gallery quality, high-end prints.

THICKNESS/WEIGHT
This refers to durability or amount of ink that paper can hold before document integrity is compromised. Thinner and lighter papers are recommended for quick prints and rough drafts, while thicker and heavier papers are good for photos, crafts, and scrapbooks.

SEMI-GLOSSY
Semi-glossy finish reduces issues associated with glare, dust and fingerprints, and is suitable for everyday photo frames or printouts with a matte border.

HIGH GLOSS
High gloss paper produces a studio finish with exceptionally vivid colours, great contrast of light and dark, as well as high paper durability. This finish is more susceptible to fingerprint smudges and glares under harsh lighting due to its glossy finish.

Specifications are subject to change without notice.

*1 Ink droplets can be placed with a pitch of 1/4800 or 1/9600 inch at minimum.
*2 Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734.
Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer.
Print speed may vary depending on system configuration, interface, software, document complexity print mode, page coverage, type of paper used etc.
*3 Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-Shirt Transfer, Photo Stickers.

*4 TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager that comes with the operating system.
*5 Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
*6 Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183.
ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.

*7 Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Colour document fax transmission speed is based on default setting using Canon Colour Fax Test Sheet Actual transmission speed may vary depending on document complexity, fax settings at receiving end, and line conditions etc.
*8 Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.
*9 Operation can only be guaranteed on a PC with a pre-installed Windows 7 or later
*10 The functions available with Bluetooth communication of this application are not guaranteed on any Android smartphones. (Even if your smartphone meets the above operation requirements, Bluetooth communication may not be possible depending on the model of your smartphone)

*11 Declared yield value in accordance with ISO/IEC 24711 (for A4 size) using ISO/IEC 24712 test file, and ISO/IEC 29102 (for 4x6" size) using ISO/IEC 29103 test file. Values obtained by continuous printing.
*12 Estimated Supplemental Yield.
Note:
All printers work in Operating Environment of Temperature: 5 ~ 35°C, Humidity: 10 ~ 90 % RH (no dew condensation).
Recommended Environment of Temperature: 15 ~ 30°C, Humidity: 10 ~ 80 % RH (no dew condensation). All printers work in Storage Environment of Temperature: 0 ~ 40°C, Humidity: 5 ~ 95 % RH (no dew condensation).

Specifications are subject to change without notice.

*1 Ink droplets can be placed with a pitch of 1/4800 or 1/600 inch at minimum.
*2 Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.
*3 Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-Shirt Transfer, Photo Stickers.
*4 TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager that comes with the operating system.
*5 Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.
*6 Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183. ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up.

*7 Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Colour document fax transmission speed is based on default setting using Canon Colour Fax Test Sheet. Actual transmission speed may vary depending on document complexity, fax settings at receiving end, and line conditions etc.
*8 Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.
*9 Operation can only be guaranteed on pre-installed Windows 7 or later)
*10 Declared yield value in accordance with ISO/IEC 24711 (for A4 size) using ISO/IEC 24712 test file, and ISO/IEC 29102 (for 4 x 6' size) using ISO/IEC 29103 test file. Values obtained by continuous printing.
*11 Estimated Supplemental Yield.
*12 Black ink is not used when printing under this condition. However, a minimal amount of black ink is used for maintenance purpose.

Disclaimers for GM4070 and GM2070
• GM4070 and GM2070 are monochrome inkjet printers. Although colour printing can be done by purchasing a compatible colour cartridge, it is recommended to utilise the ink in the installed cartridge as soon as possible.
• Once the installed ink cartridge is depleted, please replace with the contact protector or fill up with a new colour cartridge.
• To protect the electrical contacts and prevent electric shock, when the Contact Protector or colour cartridge is not installed, the printing and scanning do not work.
• GM4070 and GM2070 do not support borderless printing and photo printing even if a colour cartridge is installed.

Note:
All printers work in Operating Environment of Temperature: 5 - 35°C; Humidity: 10 - 90 % RH (no dew condensation).
All printers work in Storage Environment of Temperature: 0 - 40°C; Humidity: 5 - 95 % RH (no dew condensation).

PAGE YIELD	Plain Paper A4 (ISO/IEC 24712 test file)*¹² (Pages)		PGI-2700BK: 1000 PGI-2700(C/M/Y): 700	Optional: PGI-2700BK XL: 2500 PGI-2700(C/M/Y) XL: 1500	

Specifications are subject to change without notice.

*¹ PPM print speed is based on the highest speed settings using Canon standard patterns on A4 plain paper.

*² Document print speeds are the averages of ESAT in Office Category Test for the default simplex mode, ISO/IEC 24734. Document print speeds are the averages of FPOT in Office Category Test for the default simplex mode, ISO/IEC 17629:2014. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

*³ TWAIN driver (ScanGear) is based on the TWAIN specifications V1-9 and requires the Data Source Manager that comes with the operating system.

*⁴ Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. Increasing the scanning resolution will limit the maximum possible scanning area.

*⁵ ADF continuous PC scan speed is determined from the time spent for scanning of multiple sets of the test pages that take more than 30 seconds after first set of scanning. The test sheets (consist of 4 pages) are printed by the device for testing and used for measuring ISO/IEC 24735. Scan speed may vary depending on system configuration, interface, software, scan mode settings and document size and use frequency etc.

*⁶ To prevent overheating of the Auto Document Feeder due to high volume copy or scan tasks, the printer will occasionally stop for a number of seconds after every scan. The length of the waiting period varies according to scan settings. Under the printer's default settings (300 dpi, colour), the printer will automatically enter the "waiting mode" once approximately 80 sheets of paper have been loaded continuously onto the ADF over a short period of time.

*⁷ Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183. ADF copy speed is the average of ESAT in General Performance Test for the default simplex mode, ISO/IEC 24735, excluding time to copy the first set. Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.

*⁸ Black & white document fax transmission speed is based on default setting using ITU-T No.1 chart. Colour document fax transmission speed is based on default setting using Canon Colour Fax Test Sheet. Actual transmission speed may vary depending on document complexity, fax settings at receiving end, and line conditions etc.

*⁹ Page count is based on ITU-T No.1 chart or Canon FAX Standard Chart No.1.

*¹⁰ The Monthly Duty Cycle value provides a basis for comparison of product robustness in relation to other Canon inkjet devices, and does not refer to the actual maximum image output per month.

*¹¹ Acoustic Noise value is based on ISO7779 standard.

*¹² Declared yield value in accordance with ISO/IEC 24711 (for A4 size) using ISO/IEC 24712 test file. Values obtained by continuous printing.

Note:
All printers work in Operating Environment of Temperature: 5 - 35°C; Humidity: 10 - 90 % RH (no dew condensation).
Recommended Environment of Temperature: 15 - 30°C; Humidity: 10 - 80 % RH (no dew condensation).
All printers work in Storage Environment of Temperature: 0 - 40°C; Humidity: 5 - 95 % RH (no dew condensation).

Specifications are subject to change without notice.

*¹ Print Speed is based on ISO/IEC 24734. Measured in default mode (General Mode: 600 dpi) and calculated by Canon original methodology. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette etc.

*² Print Speed is based on ISO/IEC 24734. Measured in fast mode (Office Document Mode: 300dpi) and calculated by Canon original methodology. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette etc.

*³ Print Speed (FPOT) is based on ISO/IEC17629. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette etc.

*⁴ With custom setting, cassette 1 supports 90.0 x 190.0 mm to 216.0 x 297.0 mm. cassette 2, 3 and 4 supports 139.7 x 210.0 mm to 297.0 x 431.8 mm.

*⁵ Depending on the driver software, this margin varies.

*⁶ TWAIN driver (ScanGear) is based on the TWAIN specification V1.6.

*⁷ Optical Resolution is based on ISO/IEC 14473. This is the maximum sampling rate when scanning the original.

*⁸ When scanning in high resolution, scanning area may be limited.

*⁹ Average copy time from ADF. Set the original on ADF and measure time from pushing the scanning button to output the copied paper.

	Copy/Print		Approx. 110 W	
	Ready		Approx. 55 W	
	Sleep		Approx. 1.9 W	
	OFF		Approx. 0.1 W	
	Maximum Power Consumption		Approx. 300 W	
	Duty Cycle		100,000 pages	
	Recommended Monthly Printing Volume		1,000 to 5,000 pages	
	DIMENSION (W x D x H) Standard Configuration		Approx. 560 x 590 x 880 mm	
	With Optional Cassette Feeding Unit		Approx. 588 x 590 x 1133 mm	
	Weight		Approx. 82.5 kg	Approx. 81.5 kg
	OPTIONAL ACCESSORIES Cassette Feeding Unit: CF10 Dimension (W x D x H)		Approx. 560 x 590 x 253 mm	
	Weight		Approx. 19 kg	
	Pedestal: CB10 Dimension (W x D x H)		Approx. 560 x 590 x 260 mm	
	Weight		Approx. 11.8 kg	
PAGE YIELD	Plain Paper (A4 pages) (ISO/IEC 24712 test file)*¹⁷		PGI-7700BK XL: 12,000 PGI-7700 (C/M/Y) XL: 10,500 PGI-7700BK XXL: 20,000 PGI-7700 (C/M/Y) XXL: 16,500	

*¹⁰ Copy Speed is based on Canon original Method. With Canon original chart, execute the continuous copy and calculate copy pages per minute.

*¹¹ First-Copy-Out Time is based on ISO 29183.

*¹² Data transfer speed is measured in default mode with Canon original FAX testing chart. Actual speed varies depending on content of document, receiving settings at the destination, transfer line status and etc.

*¹³ Print Speed (FPOT) is based on ISO/IEC17629. Print speed varies depending on system configuration, interface, software, content of document, print mode, media type, weight and used cassette etc.

*¹⁴ With Custom setting, cassette 1 supports 90.0 x 190.0 mm to 216.0 x 297.0 mm. cassette 2, 3 and 4 supports 139.7 x 210.0 mm to 297.0 x 431.8 mm.

*¹⁵ Fax memory is measured with Canon original FAX testing chart. This number varies depending on the available memory size, content of document and etc.

*¹⁶ Print quality might be lower depending on the operating environment.

*¹⁷ Page yield is the estimated value based on Canon individual test method using the ISO/IEC 24711 (test method) and ISO/IEC 24712 (chart). Depending on print mode, print original environment, user maintenance mode and its frequency etc, this value varies. Page yield is based on the consumption data from the succeeding ink bottles but the first ink bottle. Page yield of setup ink bottle is based on remaining ink after consuming for initial printer setup.
